

Press release 30th of April 2019

Kide Science, a Finnish early science education company has just closed its first deal in Indonesia where co-operation begins in May with teacher training in Jakarta.

The agreement was signed with [Kidventure Academy](#), the first entrepreneurial early education provider in Indonesia. Jakarta is the first location of the Kidventure Academy's new Kindergarten model that will combine an East/West approach in terms of pedagogy and understanding of the Asian culture thus meeting the needs of the local market.

The objective of this new kindergarten chain is to teach children the skills they need for the future. The agreement was reached through Kide Science's business partner [Polkuni HK](#), which has been working with [ACE Edventure](#) group to help develop this with local Indonesian partners. The Kindergarten will open in early July 2019 with Kide Science sessions included.

Kide Science's CEO, Sari Hurme-Mehtälä confirms the great potential in the Asian market: *"There is a huge demand for Finnish research-based quality science education in Asia's early childhood sector, especially for comprehensive, plug and play pedagogical models."* Kide Science has started science programs in Malaysia, Singapore, China, and Australia in addition to launching in Korea, Hong Kong, Thailand and Azerbaijan later this year.
